DETAILED ACTION

*Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-10, and 14-23, drawn to server apparatus and method for exchanging the capability of a communication terminal, classified in class 709, subclass 238.
  - II. Claims 11-13, drawn to Internet facsimile apparatus, classified in class 358, subclass 407.
2. The inventions are distinct, each from the other because of the following reasons:
3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as receiving mail from a communication terminal, and invention II converts and transmits mail over the Internet. See MPEP § 806.05(d).
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

*Specification*

5. The disclosure is objected to because of the following informalities: Page 10, Line 16, change "[Form:]" to "[From:]—".

Appropriate correction is required.

Art Unit: 2622
